Introduction

While the population was in lockdown due to the pandemic that left the night skies open for UFO's. In Norfolk there were 11 sightings reported including which involved "multiple unknown objects moving in a strange manner in the sky" and another on November 23 2021 in Norwich, where two bright white "orb lights" were seen moving across the sky as if joined together.

Findings

The initial area was visited to gather evidence for this investigation. Eyewitnesses were interviewed to which they all gave similar accounts of the incident. It was first theorized that it may have been satellites moving in formation as some do, however when this was checked, they were not due to pass over in that area at the time of the sightings, meaning that eyewitness reports were correct at the time.

It also coincided with the fact sightings had a huge increase across the world at this point in time.

Recommendations

Overall, the recommendations that were made from this report were that of a conclusive theory that eyewitness reports did witness UFO activity however authorities refused to acknowledge the incident as nothing more than speculation.

Conclusion

To conclude this report, the findings show that the evidence presented is conclusive of UFO activity. The witness statements were all similar in reports and it is on that basis this investigation can be concluded as UFO activity.

This report was conducted by the authority of the International Bureau of Paranormal Investigation and Research.
